

Nabil Basri Hamdaoui

Android Developer

About me

Android Developer with experience in Kotlin, Jetpack Compose, and REST APIs. Focused on building efficient, modern mobile apps with clean architecture. Always eager to learn and grow in a collaborative team.

Personal

Nabil Basri Hamdaoui
Nationality: Spanish

Areas of Expertise

Android Development
RESTful APIs
Jetpack Compose
UI/UX for Mobile Apps

DEGREES

- 2023–2025 **Higher Vocational Training, Computer Science**
IES LAS ESPEÑETAS · Orihuela 📍
Training in software and cross-platform application development, with focus on Android development, database design, and Agile methodologies.
- 2021–2023 **Higher Vocational Training, Graphic Arts**
IES PACO RUIZ · Bigastro 📍
Background in 3D modeling and visual design. This helps in building polished, user-friendly interfaces in apps.

PROJECTS

2025 **Juice App**
ANDROID · KOTLIN · PAGING 3 · RETROFIT · GitHub 📍
A modern juice catalog app allowing users to browse a variety of juices. Built with Jetpack Compose, Paging 3, and Retrofit following Clean Architecture principles. Supports light and dark themes.

2025 **Climat**
ANDROID · KOTLIN · RETROFIT · LIVEDATA · GitHub 📍
Weather app that displays current weather and forecasts for nearby cities based on user location. Developed with Kotlin and modern Android architecture, using Retrofit for data fetching and LiveData for real-time updates.

SKILLS

Languages
