EXPERIENCE

2025 Web Developer
MIGUEL HERNANDEZ UNIVERSITY OF ELCHE · 📍
Developed a full-stack website for a university department, covering both frontend and backend implementation. Collaborated on feature planning, development, and delivery.

PROJECTS

2025 Juice App
ANDROID · KOTLIN · JETPACK COMPOSE · PAGING 3 · RETROFIT · GitHub 📍
Built a modern juice catalog app with clean architecture principles. Implemented paginated data loading and reusable Compose UI components, with support for light and dark themes.

2025 Climat
ANDROID · KOTLIN · RETROFIT · LIVEDATA · GitHub 📍
Developed a weather app showing current conditions and nearby-city forecasts based on user location. Designed a clear architecture for data flow and responsive UI updates.

CERTIFICATIONS

2025 Jetpack Compose - Complete Course from Scratch (2023)
APPCADEMY BY ARISTIDEVS · Certificate 📍
Completed an end-to-end Jetpack Compose training focused on modern Android UI development, state handling, navigation, and best practices for production-ready apps.
